

# Battery operated lifting aids

## ezzLIFTmasterATEX

ezzLIFTmasterATEX is a high-quality battery-operated mobile lifting aid and offers all the advantages of an electrically operated lifting aid. It is approved for the EX area.

Die ezzLIFTmasterATEX has four swivel castors (optionally also fixed castors at the front), a conductive connection to the floor and is equipped with a quick-change coupling. As a result, it is possible to switch to different load holders or to add additional ones later in the future.

ezzLIFTmasterATEX can be designed, among other things, as a drum lifting aid for emptying and transporting drums and/or containers and of course also with all other load handling devices such as roller platforms, roller grippers, forks, etc.

### Details:

- High performance lifter
- Drive with ball screw spindle for high safety and precision
- Low maintenance
- Braked motor
- 60 mm / sec lifting speed
- Remote control with spiral cable
- Rear castors with foot brakes
- Versatility through quick change coupling

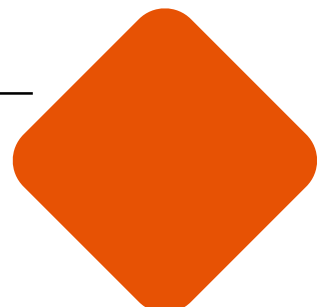

### Height:

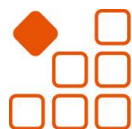

- 2000 mm
- 2200 mm
- Special heights up to 2500 mm

### Hub:

- 1385mm - 1885mm

**Load capacity** : up to 300 kg

## Zubehör:

 <p><b>Spike</b> For holding and storing all kinds of rolls</p> <p>max. weight : 300 kg</p>	 <p><b>Fork</b> Horizontal support for rollers</p> <p>max. weight : 300 kg</p>
 <p><b>Tool lift</b> Ideal for large thermoforming tools and many other tools, hoists and hooks, individually adaptable</p> <p>max. weight: 300 kg</p>	 <p><b>Roll turner</b> For handling rolls: picking up in the core and turning in horizontal and vertical position (manually or electrically operated)</p> <p>max. roll width 620 mm max. Ø roll: 700 mm max. weight: 250 kg core of 70-76 or 152 mm</p>
 <p><b>Rotatable V-block</b> Tool for transporting and positioning rolls, e.g. on packaging machines</p> <p>max. weight: 300 kg</p>	 <p><b>Platform</b> Equipped with a standard plastic platform for loading and unloading. Alternatively, platform made of stainless steel</p> <p>max. weight: 300 kg</p>
 <p><b>Gripper</b> Unit for gripping and rotating containers of different geometries</p> <p>max. weight : 300 kg</p>	 <p><b>KLT-fork</b> For gripping load carriers</p> <p>distance adjustable max. weight: 300 kg customizable fork</p>

 <p><b>Pallet wheel – Ø 80 mm</b> pallet-compatible</p>	 <p><b>Swivel caster – Ø 60 mm</b></p>	 <p><b>Duplex pallet wheel – Ø 82 mm</b> pallet-compatible</p>
