

Battery operated lifting aids

ezzLIFTlite

ezzLIFTlite is the perfect combination between ergonomics, safety and functional design. Its versatile, standardized accessories offer an attractive solution for many work processes involving lifting and moving. The simple control element is positioned at a comfortable working height. Thanks to its rounded shape and high-quality materials, the ezzLIFTlite can be maneuvered in a variety of ways and is also easy to keep clean.

ezzLIFTlite50 or 70

The lifter was developed on the basis of technical requirements for versatility and functionality - small but robust.

Lifting height:

1,450 mm - 1,535 mm - 1,735 mm

Load capacity: 50 or 70 kg

- Ergonomic handles, easy to use
- Interchangeable accessories adapt to requirements

ezzLIFTlite100-250

This trolley can lift up to 250 kg, is versatile and reliable. It is used in many industries and environments.

Lifting height:

1,535 mm - 1,735 mm – 2,035 mm

Load capacity: 100-250 kg

Equipment:

	<p>Roll turner A tool for handling rolls: picking up in the core and turning in horizontal and vertical position</p>		<p>Fork-platform combination The platform releases the fork below by folding it up. Multipurpose tool for KLTs, cylindrical objects and much more</p>
